summary

Graduated in **Computer Engineering** in the Polytechnic School of the University of Extremadura (Spain).
Frontend web developer with two years of front-end programming experience (Developing the web application for ING bank). In the two companies where I have worked I have brought teamwork and determination to provide solutions.
Between the two jobs I took a year to improve my English. I went to UK for a year and went back in 2020, to return to work as a software engineer, which is what I am currently working on and what I am passionate about.

skills

Main skills: **JavaScript** / **React** / **React Native**
 Others:
- JavaScript libraries:
  Redux (Redux-saga, Redux-thunk, Redux-reselect) / BackboneJS / jQuery
- New features:
  ES9 / **React-hooks**
- JavaScript Testing Framework:
  Jest / **Enzyme**
- Markup and style sheet language: html5 / css3

experience

| Aug 2017 – Nov 2018 | **Amarís** | Madrid, Spain |

Web developer
I contributed to the development of the account creation process of the **ING bank.**
- Working on the implementation and improvement of the account creation process through the responsive web and mobile application
