summary

Graduated in **Computer Engineering** in the Polytechnic School of the University of Extremadura (Spain).
Frontend web developer with one year of experience in Amarís (Developing the web application for ING bank). Where I leant to work as a team, who I made fluent relationship with.
After a year and a few months working there, I decided that it was time to set new goals and learning English was the following one. Due to that fact, I am currently perfecting my English in UK and working on personal frontend projects

skills

Main skills: **JavaScript** / **React** / **React Native**
 Others:
- JavaScript libraries:
  Redux (Redux-saga, Redux-thunk, Redux-reselect) / BackboneJS / jQuery
- New features:
  ES9 / **React-hooks**
- JavaScript Testing Framework:
  Jest / **Enzyme**
- Markup and style sheet language: html5 / css3

experience

Aug 2017 – Sep 2018   **Amarís**   Madrid, Spain
Web developer
I have contributed to the development of the account creation process of the **ING bank.**
- Working on the implementation and improvement of the account creation process through the responsive web and mobile application
- Using JavaScript as a programming language. Supported with BackboneJs
- Working under agile methodology

education

Sep 2013 – July 2017   **Degree in Software Engineering**   Polytechnic School. University of Extremadura, Spain
Specialization: Model-driven engineering.

Nov 2018 – Feb 2020   **General English language Course**   Warwickshire College, Leamington Spa, UK
Specialization: Upper-Intermediate English.

main personal projects

Mar 2020 – Nowadays   **applestore**
This device store shows how React components and Redux can be used to build a friendly user experience with instant visual updates and scaleable code in ecommerce applications.
- *Built With:* **React** / React-hooks / **Redux** / Redux-saga / **ES9** / Jest / Enzyme
- Demo: https://apple-store-online.herokuapp.com/
